

KEY REQUIREMENTS

- Reduce container weight
- Optimize throughput and provide internal training to sustain processing optimization
- Minimize scrap
- Improve surface appearance

OPTIMIZED PROCESSING

CONTAINER OEM STOCK TANK

AVIENT SOLUTION

Dedicated Onsite Field Technical Service

WHY AVIENT?

- Deployed an experienced field technician who was able to reduce tank weight by 30% through processing adjustments
- Provided an additional lightweighting opportunity with an optimized gas / chemical foaming agent (CFA) process
- Trained customer on CFA processing and collaborated to create a new CFA offering for further optimization
- Made adjustments resulting in lower scrap rates and improved part appearance
